To Whom It May Concern:

Dave Kaiser joined the Realtors® Association of Citrus County in September, 2005. After Dave went through orientation that was required to become a Realtor®, he approached me and offered to assist the association's public relations committee. I was ecstatic when I learned of his extensive writing publication experience, and that he was volunteering his services.

The association's monthly newsletter needed a lift so Dave immediately went to work revamping the newsletter. Each month Dave would attend the monthly meetings and special events and write articles for our newsletter. After assembling the association information, I would forward it to Dave and he would work very diligently to complete the newsletter in a timely matter. The first month the newsletter was published with the new "look" and ease of reading, the association received numerous compliments on the publication.

Dave has been a true asset to our association and he will be missed by all. I would highly recommend Dave for a job in the publishing industry.

Sincerely,

  
Bonnie Rosenberger  
Executive Officer
